Connecting to Citrix (Xenweb)

UTM Faculty, Staff, and Students can access a wide range of software for their courses using a Citrix Receiver downloaded to their Windows or Mac Computer. For in-class use, please put in a ticket to consult with I&ITS Staff to address your needs, and check with the Office of the Registrar for room scheduling.

Please note that you will be required to install a Citrix workspace for your devices operating system. You will only be required to do this once per device. This guide was created using a Windows 10 operating system.

Software available includes:

- Anaconda Navigator
- ArcGlobe 10.7
- CDendro
- ENVI 55 + IDL 87
- GRASS 641
- Matlab 2018
- Microsoft Visio 2016
- Mystat
- R Studio
- SPSS 24
- Stata IC 15
- Antidote 9
- ArcMap 10.7
- CooRecorder
- ERDAS ER Mapper 2018
- Fragstats 4.2
- IDL 87
- Maple 2019
- Microsoft Excel 2013

- ERDAS IMAGINE 2018
- Google Chrome
- Internet Explorer
- Mathematica 12
- Microsoft Project 2016
- Minitab 18
- PyScripter for Python 2.7
- SNAP Desktop

****

You can connect to Citrix via the Information & Instructional Technology Services (I&ITS) webpage. [https://www.utm.utoronto.ca/iits/information-instructional-technology-services-iits](https://www.utm.utoronto.ca/iits/information-instructional-technology-services-iits)
From the main I&IITS webpage scroll down and beneath Services select Computer Software.

From the Computer Software webpage, scroll to the bottom of the page and select your operating system.

*** Please select your operating system as directed above.
Downloading the Citrix Workspace and the Launch application

Select **Download Citrix Workspace app for Windows**.

![Image of Citrix Workspace installation successful]

Once you have successfully installed your software, you may be asked to restart your computer.

![Image of Citrix Workspace app download]

When the app opens for the first time you will be asked to enter a work email or server address. Leave this blank and check the box in "**Do not show this window automatically at sign in**".

![Image of Citrix Workspace Add Account]

Once the Citrix Client has been downloaded and installed, return to the I&IITS Computer Software webpage and select **Access Xenweb Here**.

![Image of Citrix Workspace XenApp]

Select **Skip to Log on**
Enter your UTORid and password and select **Log On**:

You now have access to the Citrix Workspace.

**To Launch a Software**

1. Select a software from the Citrix webpage
2. Select the **Open with: Browse**... icon
3. Select the **Citrix Connection Manager (default)**

You will now have full access to the software available through Citrix.
